AIRWORTHINESS APPROVAL TAG USER/INSTALLER RESPONSIBILITIES

1. It is important to understand that the existence of this Document alone does not automatically install the part/component/assembly.

2. Where the user/installer works in accordance with the national regulations of an Airworthiness Authority of the country specified in Block 1, it is essential that the user/installer ensures that the Airworthiness Authority of the country specified in Block 1 accepts parts/components/assemblies from the Airworthiness Authority of the country specified in Block 1.

3. Statements in block 14 and 19 do not constitute installation certification. In all cases aircraft must contain an installation certificate issued in accordance with the national regulations of the country in which the aircraft may be flown.
