FOR IMMEDIATE RELEASE

## **JCAA TO RESUME LIMITED AIR TRAFFIC SERVICES AT 11:00 P.M.**

The Jamaica Civil Aviation Authority is advising that progress has been made with ongoing efforts to restore Air Traffic Services at the Kingston Air Traffic Control Centre. Limited Air Traffic Services will be provided to facilitate aircraft movement within Jamaica's Flight Information Region by 11:00 p.m., Saturday, September 9, 2017.

Incoming, outbound and over-flights will begin to operate within Jamaica's airspace, as the JCAA gets closer to achieving full restoration of Air Traffic Services.

Technicians from Aeronautical Telecommunications (AERTOTEL) Ltd. and the JCAA's Communications, Navigation and Surveillance personnel continue to conduct restorative work to enable the full functionality of the radar and communications systems in the shortest possible time.

The JCAA thanks all stakeholders for their continued patience and support.

A further update will be provided following the restoration of Air Traffic Services to optimum capacity.

*The Jamaica Civil Aviation Authority (JCAA) is the statutory organization, which is responsible for regulating Jamaica's aviation industry and supporting its safe and orderly development.*
