21 October, 2010	04 November, 2010	16 December, 2010

Whenever possible, information to be promulgated should be sent well in advance of the effective date, as late receipt normally means that the processing has to be rushed and thereby increases the possibility of error.

The objective of submitting on these dates is to take into consideration the time required for the processing of information and the subsequent submission/distribution to the user, allowing sufficient time to meet the effective date.

The effective date will not be issued unless there is a high degree of certainty that these will be met.

The effective AIRAC cycle date that fall under the interval of 28 days from 17 December 2010 to 13 January 2011 will not be used, due to the delays in the processing and reception of AIRAC information.

Details on information to be notified by AIRAC AIP Supplement can be found in paragraph 6.1.1 and Appendix 4, Part 1 of ICAO Annex 15 – Aeronautical Information Services.

This AIC cancels AIC 07/09 dated August 10, 2009.
