**AIP
SUPPLEMENT**

05/16

06 April, 2016

ENR 5.1

PROHIBITED, RESTRICTED AND DANGER AREAS

All areas through which the flight of aircraft is prohibited, restricted or subject to certain specified conditions and which have some permanency should be listed, including those which are activated from time to time. Any such area should be designated a prohibited area, a restricted area, or a danger area.

ICAO's Annex 15 (Aeronautical Information Services) defines these areas as follows:

- 1) Prohibited Area - an airspace of defined dimensions, above the land areas of territorial waters of a State, within which the flight of aircraft is prohibited.
- 2) Restricted Area - an airspace of defined dimensions, above the land areas or territorial waters of a State, within which the flight of aircraft is restricted in accordance with certain specified conditions.
- 3) Danger Area - an airspace of defined dimensions within which activities dangerous to the flight of aircraft may exist at specified times.

The addition of nine (9) NEW Restricted Areas within the Kingston FIR are tabulated below and depicted on the Prohibited and Restricted Areas Chart. The restrictions which apply to each individual area are specified in the column "Remarks" of the corresponding area.

The table of Prohibited and Restricted Areas in this AIP Supplement replaces information currently contained in AIP Jamaica 4th Edition, page ENR 5.1-2 dated 31 October 2011.

This AIP Supplement supersedes information contained in ENR 5.1 of AIP Jamaica, 4th Edition.
