

## FOURTH SCHEDULE

(Regulation 27)

### AIRCRAFT AND COMPONENT ORIGINAL CERTIFICATION

#### **SUBPART A: GENERAL**

4.001 Applicability

4.010 Acronyms

#### **SUBPART B: TYPE CERTIFICATES**

4.015 Validation of Type Certificates

4.020 Type Certificate Issuance by Jamaica

4.025 Validation of Supplemental Type Certificates

#### **SUBPART C: AIRCRAFT CERTIFICATION REGULATIONS**

4.035 Applicable Aircraft Certification Regulations

#### **SUBPART A: GENERAL**

##### **4.001 APPLICABILITY**

- (a) This Schedule prescribes the Type-Certificate and Supplemental Type Certificate standards that will be applied during the issuance and renewal of airworthiness certificates.
- (b) This Schedule describes the policies of Jamaica and the designation of applicable rules for original certification of aircraft and components.

##### **4.010 ACRONYMS**

The following acronyms are used in this Schedule

- (1) AOC – Air Operator Certificate
- (2) TSO – Technical Standard Order

#### **SUBPART B: TYPE CERTIFICATES**

##### **4.015 VALIDATION OF TYPE CERTIFICATES**

- (a) The Authority will validate the Type Certificate of the State of Design or State of Manufacture when issuing a Certificate of Airworthiness for an aircraft on the Jamaican Register.
- (b) The Authority may, after technical evaluation to ensure that ICAO Standards are properly met, validate a Type Certificate issued by an ICAO Contracting State other than the State of Design or Manufacture.

##### **4.020 TYPE CERTIFICATE ISSUANCE BY JAMAICA**

- (a) The Authority will hold this Subpart reserved until such time as it has received an application for Type Certificates, Production Certificates or other related approvals. At this time, Jamaica does not issue Type Certificates.
- (b) Any applicant for a Production Certificate for any aircraft or aeronautical product thereof for manufacture in Jamaica shall comply with the Type Certificate as required by the State of Design for approval.
- (c) At such time as the application for production is presented, the Authority will make available suitable schedules or provisions for the issuance of a Certificate of Airworthiness, or other airworthiness document as appropriate for the product concerned.

##### **4.025 VALIDATION OF SUPPLEMENTAL TYPE CERTIFICATES**

Any person who alters a product by introducing a major change in type design, not great enough to require a new application for a Type Certificate, shall apply for a Supplemental Type Certificate

(STC) to the regulatory agency of the State of Design that approved the type certificate for that product. The JCAA will accept and validate such an STC.

## **SUBPART C: AIRCRAFT CERTIFICATION REGULATIONS**

### **4.035 APPLICABLE AIRCRAFT CERTIFICATION REGULATIONS**

- (a) The Authority will apply the detailed and comprehensive aircraft certification regulations of the ICAO Contracting State which issued the Type Certificate to the determination of continued airworthiness of an aircraft, provided that –
  - (1) these Regulations are in conformance with the Standards of ICAO Annex 8;
  - (2) these Regulations are in English or a certified translation to English;
  - (3) a copy of these regulations is provided with the application for the Certificate of Airworthiness; and
  - (4) there is a satisfactory method of updating the Authority's copy of these Regulations throughout the period of time the aircraft is registered in Jamaica.
- (b) The aircraft certification regulations which are available to, and applied by the Authority in the determination for issuance of a Certificate of Airworthiness and continuing airworthiness are those of the –
  - (1) United States Federal Aviation Administration;
  - (2) European Joint Aviation Authorities; and
  - (3) Canadian Ministry of Transport.
